ARTIFACT D · FILL-IN

# HARMS Risk Worksheet

Score the AI use your table just performed in Lab 3.

## H — Humans affected

Who touches or is touched by this AI use? (users, bystanders, the people in the data)

## A — Adverse outcome

What is the worst plausible outcome — not the worst imaginable?

## R — Risk defenses in place

What stands between today and that outcome? What did we lower without raising something else?

## M — Mitigation & owner

What one defense do we add, and whose name is on it?

## S — Signal & receipt

What evidence would prove the defense worked — and where do we keep it?

**Highest risk** (one sentence)

**Mitigation** (one sentence)

Note for facilitators: field labels align to Ken's HARMS framework; swap in canonical wording from the foundation site if it differs.
